

Notice for the **NRS** press release for **April 2018** data:

**Notice:** With this release, seasonally adjusted estimates of housing units sold, housing units for sale, and the months' supply of new housing have been revised back to January 2013. All revised estimates are available on our website. With each April release, seasonally adjusted data will now be revised for the current year and the previous five years. Research has shown that this revision span should produce more reliable seasonally adjusted time series.
