Announcing . . .

Time Series of County and MSA Population Estimates, 1980-85

The Bureau of the Census has released individual State reports showing annual population estimates for counties (or equivalents) and metropolitan statistical areas (MSA's) for the years 1981 through 1985, together with 1980 census counts and components of population change for the period 1980 to 1985. The series of 50 State reports has been published on a flow basis over several months in Current Population Reports, Series P-26.

These estimates supersede the Series P-26 State reports issued for 1981-83 and the provisional county estimates published separately for 1984 and 1985. They are consistent with provisional county population estimates for 1986 released in Current Population Reports, Series P-26, No.86-A.
