(1) The petroleum products aggregated in the end-use commodity classification system include virtually the same energy-related petroleum products as those aggregated in the Standard International Trade Classification (SITC). The end-use petroleum products, however, include some products such as ethane, butane, benzene, and toluene, which are included in "Manufactured Goods" in the SITC.
NOTE: For information on data sources, nonsampling errors and definitions, see the information section on page A-1 of the FT-900 release at www.census.gov/ft900 or www.bea.gov/newsreleases/international/trade/tradnewsrelease.html
