

FOR RELEASE AT 10:00 AM EDT, FRIDAY, APRIL 1, 2022

MONTHLY CONSTRUCTION SPENDING, FEBRUARY 2022

Release Number: CB22-56

April 1, 2022 — The U.S. Census Bureau announced the following value put in place construction statistics for February 2022:

CONSTRUCTION SPENDING	
FEBRUARY 2022	\$1,704.4 billion
JANUARY 2022 (revised)	\$1,695.5 billion
Next release: May 2, 2022	
Seasonally Adjusted Annual Rate (SAAR) Source: U.S. Census Bureau, April 1, 2022	

Total Construction

Construction spending during February 2022 was estimated at a seasonally adjusted annual rate of \$1,704.4 billion, 0.5 percent (± 0.7 percent)* above the revised January estimate of \$1,695.5 billion. The February figure is 11.2 percent (± 1.2 percent) above the February 2021 estimate of \$1,533.3 billion. During the first two months of this year, construction spending amounted to \$237.8 billion, 10.4 percent (± 1.0 percent) above the \$215.4 billion for the same period in 2021.

Private Construction

Spending on private construction was at a seasonally adjusted annual rate of \$1,353.7 billion, 0.8 percent (± 0.7 percent) above the revised January estimate of \$1,343.4 billion. Residential construction was at a seasonally adjusted annual rate of \$850.6 billion in February, 1.1 percent (± 1.3 percent)* above the revised January estimate of \$841.2 billion. Nonresidential construction was at a seasonally adjusted annual rate of \$503.0 billion in February, 0.2 percent (± 0.7 percent)* above the revised January estimate of \$502.2 billion.

Public Construction

In February, the estimated seasonally adjusted annual rate of public construction spending was \$350.7 billion, 0.4 percent (± 1.3 percent)* below the revised January estimate of \$352.2 billion. Educational construction was at a seasonally adjusted annual rate of \$80.6 billion, 1.3 percent (± 1.8 percent)* below the revised January estimate of \$81.7 billion. Highway construction was at a seasonally adjusted annual rate of \$104.4 billion, 1.3 percent (± 4.8 percent)* below the revised January estimate of \$105.8 billion.

Notice

With the May 2022 release, unadjusted data will be revised back to January 2020 and seasonally adjusted data will be revised back to January 2015. With each May release, seasonally adjusted data will now be revised for an additional five years beyond the revision period for unadjusted data. Research has shown that this revision span should produce more reliable seasonally adjusted time series.

The March 2022 Monthly Construction Spending Report is scheduled for release on May 2, 2022. View the full schedule in the Economic Briefing Room: <www.census.gov/economic-indicators/>. The full text and tables for this release can be found at <www.census.gov/constructionspending/>.

EXPLANATORY NOTES

In interpreting changes in the statistics in this release, note that month-to-month changes in seasonally adjusted statistics often show movements which may be irregular. It may take 2 months to establish an underlying trend for total construction and as long as 8 months for specific categories of construction. The statistics in this release are estimated from several sources and surveys and are subject to sampling variability as well as nonsampling error including bias and variance from response, nonreporting, and undercoverage. Estimates of the standard errors are provided in Table 3. Whenever a statement such as "2.3 (\pm 3.1) percent above" appears in the text, this indicates the range (-0.8 to +5.4 percent) in which the actual percentage change is likely to have occurred. All ranges given are 90 percent confidence intervals and account only for sampling variability. If a range does not contain zero, the change is statistically significant. If it does contain zero, the change is not statistically significant; that is, it is uncertain whether there was an increase or decrease. Statistics for the current month are preliminary estimates subject to revision in following months as additional data become available. The average absolute percent changes from preliminary estimate to first revision for the major seasonally adjusted components are as follows: total construction, 0.73 percent; private construction, 0.92 percent; and public construction, 0.58 percent. Explanations of confidence intervals and sampling variability can be found on our website at <www.census.gov/construction/c30/meth.html/>.

RESOURCES

API

The Census Bureau's application programming interface lets developers create custom apps to reach new users and makes key demographic, socio-economic and housing statistics more accessible than ever before. <www.census.gov/developers/>

FRED Mobile App

Receive the latest updates on the nation's key economic indicators by downloading the FRED App <<https://fred.stlouisfed.org/fred-mobile/>> for both Apple and Android devices. FRED, the signature database of the Federal Reserve Bank of St. Louis, now incorporates the Census Bureau's 13 economic indicators.

###

* The 90 percent confidence interval includes zero. There is insufficient evidence to conclude that the actual change is different from zero.
