

# Address canvassing by the numbers.

The U.S. Census Bureau has modernized its address canvassing operation with technology to make the process more efficient, effective, and cost-saving.

**100%**  
review of nation's address list

**65%**

of addresses have been verified through in-office address canvassing using satellite imagery

 **5.5M**

new addresses added to the Census Bureau's list through collaboration with the U.S. Postal Service

 **106M**

addresses validated with help from tribal, state, and local governments

**35%**

of addresses will be verified through in-field address canvassing

 **Up to 40k**

people to be hired as census listers, workers who canvass neighborhoods nationwide to verify addresses

 **About 10 weeks**

In-field address canvassing runs from August 2019 through mid-October 2019
