PREFACE

This paper consists of a list of selected references concerning the Survey of Income and Program Participation (SIPP) and its predecessor, the Income Survey Development Program (ISDP). It is intended as an instrument to which the user can turn for further information about SIPP.

Since 1979, there have been many users in the academic and scientific community who have been working with either the ISDP or (since 1984) the SIPP to analyze the data or study methodological issues. As one of these users or a new user, these references will help you to be aware of research that has been completed by others.

This list was based on references from the online bibliography maintained by SIPP ACCESS at the University of Wisconsin-Madison. If you are interested in reviewing this bibliography, you can reach SIPP ACCESS on 608-262-6358 or write SIPP ACCESS, Institute for Research on Poverty, Social Science Building, 1180 Observatory Drive, University of Wisconsin-Madison, Madison, WI 53706. We would like to thank Martin David and Alice Robbin of SIPP ACCESS for their cooperation in making their bibliography available.

FOR YOUR INFORMATION:

Copies of the SIPP Working Paper Series and the Journal of Economic and Social Measurement (Volume 13, Nos. 3 and 4 of December 1985) are available from the SIPP Research and Coordination Staff (301-763-5784).
