

PEPSR5H

Annual Estimates of the Resident Population by Sex, Race Alone or in Combination, and Hispanic Origin for the United States, States, and Counties: April 1, 2010 to July 1, 2012

2012 Population Estimates

Sex: Both Sexes
Year: July 1, 2012
Hispanic Origin: Total

Geography	Race Alone or in Combination [1]				
	White	Black or African American	American Indian and Alaska Native	Asian	Native Hawaiian and Other Pacific Islander
District of Columbia	283,523	326,178	8,539	30,403	1,937

[1] "In combination" means in combination with one or more other races. The sum of the five race groups adds to more than the total population because individuals may report more than one race.

Note: The estimates are based on the 2010 Census and reflect changes to the April 1, 2010 population due to the Count Question Resolution program and geographic program revisions. Hispanic origin is considered an ethnicity, not a race. Hispanics may be of any race. Responses of "Some Other Race" from the 2010 Census are modified. This results in differences between the population for specific race categories shown for the 2010 Census population in this table versus those in the original 2010 Census data. For more information, see <http://www.census.gov/popest/data/historical/files/MRSF-01-US1.pdf>. For population estimates methodology statements, see <http://www.census.gov/popest/methodology/index.html>.
