### Phase 4:

February 2020–April 2021

### Phase 5:

May 2021–July 2021

### Phase 6:

August 2021–October 2021

### Phase 7:

November 2021–January 2022

### Phase 8:

February 2022–April 2022

## TRACKING CHANGES DURING THE CORONAVIRUS PANDEMIC

The Small Business Pulse Survey (SBPS) measures the effect of changing business conditions during the coronavirus pandemic on our nation's small businesses. SBPS data complements existing U.S. Census Bureau data collections by providing high-frequency detailed information on the challenges small businesses are facing during the pandemic.

Near real-time data is collected from small businesses on operational challenges, vaccine requirements, supply chain impact, outlook and expectations, and much more. Data is available by sector and state for the fifty most populous metropolitan statistical areas (MSAs).

Survey results give local, state, and federal officials essential real-time data to aid in policy- and decision-making. In addition, the information aids businesses in making economic decisions and assists researchers studying the effects of the pandemic.
