

PRELIMINARY: U.S. IMPORTS FOR CONSUMPTION OF STEEL PRODUCTS, JULY 2022

Release Number: CB 22-137 FT-900A (22-07)

August 25, 2022 — The U.S. Census Bureau announced today that preliminary July steel imports were \$3.9 billion (2.4 million metric tons) compared to the preliminary June totals of \$4.0 billion (2.6 million metric tons).

The July change in steel imports based on metric tonnage reflected a decrease in blooms, billets, and slabs. Increases occurred in wire rods, reinforcing bars, and oil country goods. Decreases occurred primarily with Russia and Canada. Increases occurred primarily with Japan, Turkey, and Brazil.

The year to date final statistics through June 2022 showed steel imports of 15.3 million metric tons compared with 13.3 million metric tons through June 2021. The largest commodity increases occurred with oil country goods, wire rods, and cold rolled sheets. Decreases occurred primarily in blooms, billets, and slabs. The largest country increases occurred with Mexico. Decreases occurred primarily with Brazil.

The August report is scheduled for release on September 26, 2022. View the full schedule at: <www.census.gov/foreign-trade/reference/release_schedule.html> The full text and tables for this release can be found at <www.census.gov/foreign-trade/Press-Release/steel_index.html>.

EXPLANATORY NOTES

The data in this report are preliminary and subject to revisions. Analysis of recent months for steel product imports indicates the value of preliminary data should equal about 96 percent of the final value reported in the regular monthly trade statistics report. Preliminary data reported for individual steel categories and at the individual country of origin level have been less consistently predictive of the final data reported in the regular monthly trade statistics. For further details, visit our web site at <www.census.gov/trade>. On the website, you can access product by country and country by product tables.
