

PRELIMINARY: U.S. IMPORTS FOR CONSUMPTION OF STEEL PRODUCTS APRIL 2024

Release Number: CB24-82 FT-900A (24-04)

MAY 23, 2024 — The U.S. Census Bureau announced today that preliminary April steel imports were \$3.0 billion (2.5 million metric tons) compared to the preliminary March totals of \$2.8 billion (2.3 million metric tons).

The April change in steel imports based on metric tonnage reflected increases in blooms, billets, and slabs and wire rods. Decreases occurred in oil country goods, galvanized hot dipped sheets and strips, and line pipe – not specified. Increases occurred primarily with Mexico. Decreases occurred primarily with Korea.

The year-to-date final statistics through March 2024 showed steel imports of 6.8 million metric tons compared with 6.8 million metric tons through March 2023. The largest commodity increases occurred with galvanized hot dipped sheets and strips. Decreases occurred with oil country goods. The largest country increases occurred primarily with Korea and Brazil. Decreases occurred with Mexico.

The May report is scheduled for release on June 26, 2024. View the full schedule

at: <www.census.gov/foreign-trade/schedule.html>. The full text and tables for this release can be found at <www.census.gov/foreign-trade/Press-Release/steel_prelim.html>.

EXPLANATORY NOTES

The data in this report are preliminary and subject to revisions. Analysis of recent months for steel product imports indicate the value of preliminary data should equal about 96 percent of the final value reported in the regular monthly trade statistics report. Preliminary data reported for individual steel categories and at the individual country of origin level have been less consistently predictive of the final data reported in the regular monthly trade statistics. For further details, visit our web site at <www.census.gov/trade>. On the website, you can access product by country and country by product tables.
