

PRELIMINARY: U.S. IMPORTS FOR CONSUMPTION OF STEEL PRODUCTS MAY 2024

Release Number: CB24-103 FT-900A (24-05)

JUNE 26, 2024 — The U.S. Census Bureau announced today that preliminary May steel imports were \$3.1 billion (2.6 million metric tons) compared to the preliminary April totals of \$3.0 billion (2.5 million metric tons).

The May change in steel imports based on metric tonnage reflected increases in oil country goods, galvanized hot dipped sheets and strips, and line pipe – not specified. Decreases occurred in blooms, billets, and slabs and hot rolled sheets. Increases occurred primarily with Korea and Brazil. Decreases occurred primarily with Mexico.

The year-to-date final statistics through April 2024 showed steel imports of 9.4 million metric tons compared with 9.0 million metric tons through April 2023. The largest commodity increases occurred with blooms, billets, and slabs and galvanized hot dipped sheets and strips. Decreases occurred with oil country goods. The largest country increases occurred primarily with Brazil. Decreases occurred primarily with Mexico.

The June report is scheduled for release on July 25, 2024. View the full schedule at: <www.census.gov/foreign-trade/schedule.html>. The full text and tables for this release can be found at <www.census.gov/foreign-trade/Press-Release/steel_prelim.html>.

EXPLANATORY NOTES

The data in this report are preliminary and subject to revisions. Analysis of recent months for steel product imports indicate the value of preliminary data should equal about 96 percent of the final value reported in the regular monthly trade statistics report. Preliminary data reported for individual steel categories and at the individual country of origin level have been less consistently predictive of the final data reported in the regular monthly trade statistics. For further details, visit our web site at <www.census.gov/trade>. On the website, you can access product by country and country by product tables.
