2013 Department of Commerce Export Compliance Program Schedule Released

The 2013 schedule for the Department of Commerce Export Compliance Programs has been released and is now available on the Census Bureau website. The seminar programs and AES*PcLink* workshops will be held in multiple locations throughout this coming year.

During the seminar, training will be provided by the U.S. Department of Commerce (U.S. Census Bureau, Bureau of Industry & Security) and the U.S. Department of Homeland Security (Customs & Border Protection). These experts will cover the filing requirements of the Foreign Trade Regulations (FTR), how to classify your commodities by providing an understanding of the Schedule B classification requirements, EAR compliance, enforcement of the FTR, and provide a thorough overview of the AES.

The second day will offer a half day AES*PcLink* Workshop in which participants can enjoy the benefits of FREE electronic filing of their export information via the Windows-based desktop PC Component AES*PcLink*. Learn how to successfully file your export information in this hands-on PC training workshop.

Certified Export Specialist (CES) Credits are available for those who attend the U.S. Department of Commerce Export Compliance Program and/or AES*PcLink* Workshop. This will allow participants in the National Customs Broker & Forwarders Association of America's CES Certification Program to earn credit towards retaining their certification.
