Schedule B and Harmonized Tariff Schedule (HTS) Updated in the Automated Export System (AES)

Effective immediately, the Schedule B and Harmonized Tariff Schedule (HTS) tables in the AES have been updated to accept the changes to the 2013 codes.

AES will accept shipments with outdated 2012 codes during a grace period for 30 days beyond the expiration date of December 31st, 2012. Reporting an outdated 2012 code after the 30 day grace period will result in a fatal error.

The AESDirect program has been updated with the 2013 codes and will accept shipments with outdated 2012 codes during the grace period as well.

All AESPcLink users must update their AESDirect code tables to reflect the 2013 changes in Schedule B and HTS. Web users of AESDirect who file via the website at www.aesdirect.gov will have their code tables updated via the program automatically.

The 2013 Schedule B and HTS tables are available for downloading at:

The current list of HTS codes that are not valid for AES are available at:
