The U. S. Commerce Department's Bureau of Industry and Security (BIS) will conduct the 8<sup>th</sup> Annual Export Control Forum in Newport Beach, CA, on February 25-26, 2013. This year's conference will bring you the latest on the progress of the Administration's Export Control Reform initiative. Senior management, policy, regulatory and enforcement personnel from the BIS will participate in this event. The conference will also feature representatives from the Departments of State, Defense, and Treasury, as well as the U.S. Census Bureau.

This day-and-a-half conference will give you the opportunity to hear from, and meet with, many of the key people involved in the rapid changes underway in the export control field. The event includes a networking reception at the close of the first day, enabling you to interact with the speakers and other attendees in a more relaxed environment.

The registration fee for the Forum is \$525 (unchanged from recent years), and has been approved for Continuing Legal Education credit by the State of California. There are also limited exhibit opportunities still available for those interested.
