## Statistical Abstract of the United States: 2012

U.S. Department of Commerce Economics and Statistics Administration us. CENSUS SURSAU

## Table 1040. Aerospace Industry Sales by Product Group and Customer: 1990 to 2010

[In billions of dollars (134.4 represents \$134,400,000,000). Due to reporting practices and tabulatimg methods, figures may differ from those in Table 1038]

¹ Beginning in 2005, sales numbers for individual product groups are not comparable to figures in prior years due to revised survey methodology. However, total annual sales data remain comparable across all years of the time series. ² All civil sales of aircraft (domestic and export sales of jet transports, commuters, business, and personal aircraft and helicopters). ³ Electronics, software, and ground support equipment, plus sales of non-aerospace products which are produced by aerospace-manufacturing use technology, processes, and materials derived from aerospace products. ⁴ Department of Defense. ⁵ National Aeronautics and Space Administration. ⁵ Includes civil aircraft sales (see footnote 4), commercial space sales, all exports of military aircraft and missiles and related propulsion and parts. ⁻ Based on Aerospace Industry Association's aerospace composite price deflator (200–100).
