<sup>1</sup>'No response to registration' includes those who were not asked if they were registered as well as those who responded 'Don't Know,' and 'Refused.'

<sup>2</sup>'No response to voting' includes those who were not asked if they voted as well as those who responded 'Don't Know,' and 'Refused.'

Note: Federal surveys now give respondents the option of reporting more than one race. Therefore, two basic ways of defining a race group are possible. A group such as Asian may be defined as those who reported Asian and no other race (the race-alone or single-race concept) or as those who reported Asian regardless of whether they also reported another race (the race-alone-or-in-combination concept).

<sup>1</sup>'No response to registration' includes those who were not asked if they were registered as well as those who responded 'Don't Know,' and 'Refused.'

<sup>2</sup>'No response to voting' includes those who were not asked if they voted as well as those who responded 'Don't Know,' and 'Refused.'

Note: Federal surveys now give respondents the option of reporting more than one race. Therefore, two basic ways of defining a race group are possible. A group such as Asian may be defined as those who reported Asian and no other race (the race-alone or single-race concept) or as those who reported Asian regardless of whether they also reported another race (the race-alone-or-in-combination concept).
